

# GREAT TYRES FOR GREATER GRIP

The tyres of your Subaru are its only contact with the road. Ensuring that your tyres are running in optimal condition is crucial to maximising vehicle control for safety, especially in poor weather or road conditions.

Are your tyres a little tired? Get them professionally inspected if you notice any of these signs.

Excessive noise from the wheels while driving

Tread Wear Indicators (TWI) level with the tread surface

Aquaplaning

Poor traction on the road
